

MAP OF LAND BEING TAKEN AT WAIKIKI FOR MILITARY USE

The space marked "military reservation" in the above map was acquired some time ago by the United States for military purposes. The lines surrounding the larger open space show the area included in the condemnation suit brought about a week ago, the above being a copy of the map attached to the complaint on file. As will be seen, the plans involve cutting off Kalia road at the Kentwell place and the reservation extends from the beach along the beach and to Kalakaua avenue mauka excepting a small piece. Since this suit was begun it has been announced that the McCandless place is also to be taken, also that the government may take all the land as far as the Seaside, and perhaps to the stream between the Seaside and Moana. There is already a considerable camp of engineers on the ground.

They will be trained for work in the suburban parts of the city.

RECEIVES ENVOY OF CHINA'S RULER

PRESIDENT AND ORIENTAL DIPLOMAT EXCHANGE FRIENDLY WORDS.

WASHINGTON, December 17.—"Long may your excellency enjoy good health and happiness; may the American people be ever blessed with prosperity and peace; these are our heartfelt wishes."

These are the sentiments expressed in the concluding sentence of the letter from the late Emperor of China to the President, handed him today by Tong Shao Yi, the special Chinese Ambassador, thanking the United States Government for the remission of \$14,000,000 of the indemnity guaranteed by China for damages resulting from the Boxer rebellion.

The presentation of the letter took place in the blue parlor of the White House at 2:30 o'clock this afternoon. Tong, who was accompanied to the White House by Prince Tsai Fu, as first secretary, and a dozen other members of his suite, was introduced to the President by Acting Secretary Adee of the State Department, in the absence of Mr. Root, who was confined to his home by indisposition. The letter from the late Emperor was as follows:

"The Emperor of China to the President of the United States of America, greeting:

"Mr. President: China has always maintained the most friendly relations with the United States since the establishment of intercourse between the two countries. By taking the initiative in proposing remission of a portion of the indemnity as provided by treaty, your excellency has won the respect of mankind for magnanimity and just dealing. Furthermore, the Congress has given signal proof of friendliness by giving effect to your excellency's recommendations. In sincere recognition of this generous action, we hereby appoint Tong Shao Yi, an official with the rank of President of a Ministry and Governor of the province of Fung Tien, as special Ambassador to proceed to the United States for the purpose of presenting this, our letter. We have always placed entire confidence in his eminent ability, clear perception and sterling integrity. We have specially commended him in the discharge of his duties, to convey to your excellency the expression of our grateful thanks and testify

THE AMERICANS TO BE SWARTHY

A HARVARD PROFESSOR DISCUSSES THE ABNORMAL INTERMIXTURE OF RACES.

Prof. W. Z. Ripley, of Harvard, declares in an article on "Races in the United States," which appears in the Atlantic Monthly for December, that future Americans will be swarthy.

The abnormal intermixture of races, he says, may result in a black-eyed type, running back to a time before the European separation of man began. This may settle "the live issue as to whether the first Europeans were long-headed or broad-headed, that is to say, Negroid or Asiatic in derivation."

Professor Ripley speaks of the primary physical brotherhood of all races of men as a "scientific probability."

He remarks upon the tendency of intermixed stocks to increase the percentage of female births. Moreover, in the "powerful process of social selection," which is already apparent, the Anglo-Saxon or Teutonic element is threatened with complete submergence. To nourish, uplift and inspire the immigrant peoples of Europe is henceforth the "Anglo-Saxon's burden."

to our lasting friendship. It is our hope that the relations of the two countries will be further strengthened by mutual confidence. Long may your excellency enjoy good health and happiness; may the American people be ever blessed with prosperity and peace. These are our heartfelt wishes.

"Given on the 24th day of the eighth moon in the thirty-fourth year of Kwang Hsu (September 19, 1908.)"

In presenting the letter Ambassador Tong recalled that it was the last message addressed by his late majesty to the President and said every line of it breathes friendship and good will for the Government and people of the United States and voices the sentiments of all China.
